Nu Skin BEAUTY FOCUS™ COLLAGEN+ Quick Facts:

- **Bioactive Collagen Peptides** — elite collagen peptides featuring a unique peptide "fingerprint" that is shown to effectively stimulate collagen and elastin production.
- **Lutein** — this important carotenoid, not typically found in beauty supplements, helps protect skin against oxidative stressors.
- **Phytoceramides** — support skin barrier function and hydration.
- **CLINICALS THAT PROVE IT** Nu Skin commissioned a third-party clinical study to evaluate the efficacy of taking Beauty Focus Collagen+ once a day for four months. This study used a double-blind methodology with part of the group receiving a placebo.
